

## HYDROLOGY COMMITTEE ACTION ITEM LOG FY02

	Action Item	Meeting/ Origination Date	Responsible Party	Due Date	Revised Date	Date Completed
1	Complete 2nd generation model documentation. Reclamation portion was mostly the data. Still being reviewed. Responses to commentators have been written.	7/25/01	Reclamation and Keller-Bliesner	11/27/01	John Simons needs to review <del>7/15/02</del> 9/30/02	
4	Add model runs and other information to the permanent hydrology website: <a href="http://wcao.uc.usbr.gov/envprog/sjrip/">http://wcao.uc.usbr.gov/envprog/sjrip/</a> .	7/25/01	Dave King	Ongoing		Continues to Update
5	Model modification briefings.	7/25/01	Reclamation and Keller-Bliesner	Ongoing		
12	Any new data or methods incorporated into RiverWare or State Mod will be shared with the Hydrology Committee.	7/25/01	Keller-Bliesner and Reclamation	Ongoing		
24	Reclamation will extend Arizona and Utah historic irrigated acreage data back to 1929, in a spreadsheet format, as needed for the model.	9/26/01	Reclamation (11/27/01)	mid May 2002	<del>7/15/02</del> 9/15/02	
32	Reclamation is tasked with tracking and managing the Committee's time and money. A percent complete and percent expended table will be provided by Reclamation and Keller-Bliesner and available for a budget and schedule review at the March 26 <sup>th</sup> meeting. Pat Page and Dave King will work together to send out a monthly expenditures report.	11/27/01	Dave King Reclamation Keller-Bliesner	Monthly <del>March 26</del> Ongoing		
33	New Mexico will work on developing data on non-irrigation depletions starting in March.	11/27/01	New Mexico	March 2002	Extended	
34	Gage error analysis discussion: the Hydrology Committee still needs to determine whether big losses are due to daily disaggregation. The Committee has the option to re-evaluate losses once the 3 <sup>rd</sup> Generation model is complete.	11/27/01	Hydrology Committee		When the Model is complete	

	<i><b>Action Item</b></i>	<i><b>Meeting/ Origination Date</b></i>	<i><b>Responsible Party</b></i>	<i><b>Due Date</b></i>	<i><b>Revised Date</b></i>	<i><b>Date Completed</b></i>
37	The Hydrology Committee would like to quantify the benefits of continuing to fund USGS for additional gage readings on the San Juan beyond 2002. The Committee decided to allocate the funds for the additional gage readings and the allocation can be removed later if it needed after the re-evaluation in #34.	1/15/02	Hydrology Committee	after Oct. 29, 2002 Hydrology meeting		
58	John Whipple will provide a written statement of New Mexico's concerns re: State Mod. Based on that, Ray Alvarado will provide a written description of StateMod. New Mexico's comments have not yet been received.	5/7/02	John Whipple Ray Alvarado	6/17/02	Extended	
63	In the development of the model, if another data set is found that disagrees with the data provided by the state (or anyone else), then that information needs to be discussed at a Hydrology Committee meeting.	6/25/02	Modelers Hydrology Committee	Immediately Ongoing		
65	The discussion on zero flows, on handout #2 from Keller-Bliesner, needs to be strengthened to describe the need for spreading flows out over a month instead of showing several days of zero flow. More description of the magnitude of the missing data would make it easier to understand the methodology. <i>Alvarado &amp; Westfall will discuss (per 8/20/02).</i>	6/25/02	Keller-Bliesner	??		
66	Shirley Mondy will see if Joy Nicholopoulos is available to be on the next Hydrology Committee conference call to answer consultation and baseline questions.	6/25/02	Shirley Mondy		10/29/02	
67	Baseline depletions will be discussed further at the 10/29/02 Hydrology Committee meeting.	6/25/02		August 20 conf. call	10/29/02	
71	Shirley Mondy will talk with Brent Uilenberg about the proposed grow out ponds to see what the capital expenditure implications would be.	6/25/02	Shirley Mondy		9/25/02 Coordination Meeting	
72	Ron Bliesner will send NIIP demands for next year to John Simons, so that information can be included in the Hydrology Committee's flow recommendation memo to the Biology Committee/FW S/Reclamation.	6/25/02	Ron Bliesner John Simons			

	<i><b>Action Item</b></i>	<i><b>Meeting/ Origination Date</b></i>	<i><b>Responsible Party</b></i>	<i><b>Due Date</b></i>	<i><b>Revised Date</b></i>	<i><b>Date Completed</b></i>
76	Hydrology Committee members should email their comments on the Third Generation Navajo Draft Operating Criteria, dated 8/19/02, to Dave King, Ron Bliesner, and/or Brian Westfall by September 13, 2002.	8/20/02	Hydrology Committee	9/13/02		
77	Discuss the need for peer review for Hydrology Committee work. Committee members should bring ideas and suggestions to the next meeting.	8/20/02	Hydrology Committee	10/29/02		

August 26, 2002
